Te Ara a Kiwa, a traditional legend retold for tamariki – English version (te reo Māori version on the following slide)

Kia ora! My name is Hinemoana. I live at Awarua. Pōua often takes me to the top of Motu Pōhue to gaze at Rakiura and admire the beautiful sunsets behind Hananui.

One evening, as the sun glistened on the sea below, Pōua called “Kiwa, we see your wake on the ocean. Thank you for our beautiful strait and its abundant resources.” “Pōua, who is Kiwa? Why are you thanking him?” Pōua told me that before the time of Māui, a beautiful atua named Hinemoana would glide far and wide through Te Moana-nui-a-Kiwa, the biggest ocean in the world. “Hinemoana?” I said, “That’s my name too!” “Yes”, said Pōua, “and she was a strong swimmer like you too, but she didn’t interrupt people when they were telling stories.” Pōua was sort of joking but I let him carry on with his kōrero. Hinemoana was married to Kiwa. They helped Takaroa look after this part of his domain. Hinemoana and Kiwa had lots of children who are the many kinds of fish, shellfish, and kelp. When Māui hauled his great fish out of the ocean, he steadied his waka with an anchor. The fish became an island, a home for people called Te Ika-a-Māui but also known as Aotearoa. The waka, Māhunui, known as Te Waipounamu, also became an island for people. The anchor, Te Puka a Māui, and the anchor rope were transformed into land. Although these islands were great for people, the anchor rope prevented Hinemoana from making her favourite journey. Having to swim around the anchor, into the freezing waters of Te Moana Tāpokopoko a Tāwhaki was difficult.

Hinemoana asked Kiwa to help her with his magical powers. Our ancestors say Kiwa was a shapeshifter who could transform into any sea creature and command any creature in the sea to do as he wanted. Kiwa became a giant whale, a kewa. He swam as fast as he could towards the anchor rope of land that had blocked Hinemoana. Just before he hit it, he opened his mouth and took one enormous bite! Crumbs fell from his mouth forming little islands. Two teeth became loose, so he spat them out and they became rocks. The largest is Te Niho o Kewa, a big whale’s tooth, also known as Hautere though Pākehā call it Solander’s Rock. Although he lost some teeth, Kiwa was successful! The anchor rope of land was now water. Hinemoana could move freely through Te Moana-nui-a-Kiwa. Te Puka-a-Māui had become an island. People called it Moutere-nui, known today as Rakiura.

Hinemoana named the new area after this great deed. Unable to decide whether to thank her husband or the whale, she did both. That’s why the strait is known as Te Ara-a-Kewa and Te Ara-a-Kiwa: the path of Kiwa. “Pōua,” I said, “that’s the name of our Sea Scout troop!” He replied, “Ae. That’s why your scarves are blue and gold. Blue represents Te Moana-nui-a-Kiwa and gold is the ara we see on sunny evenings like tonight.” Pōua said there was one last part of the story.

Hinemoana and Kiwa asked their descendants to stay in the area, to look after the people who had made this land their home. That is why Te Ara-a-Kiwa provides us with abundant kaimoana, rimurapa and tītī. “Is that why you thanked Kiwa before?” I asked Pōua. “Tika tāu,” he replied, “If we care for these taoka that he and Hinemoana left us, these taoka will continue to care for us.” Now I understand why Te Ara-a-Kiwa is so special to everyone at Awarua and Rakiura.

Kaiako instructions to ākonga

- ▶ I am going to read the story. “Te Ara a Kiwa”.
- ▶ I am going to read it in four “beats”. Four separate parts.
- ▶ You have four pieces of paper, one piece for each beat of the story.
- ▶ You have to quickly sketch something that will remind you what you hear so that you can retell the story later. You can’t use letters, numbers or words.
- ▶ I will read each beat of the story two times. You might want to listen the first time, and then draw, or you might want to start drawing immediately.
- ▶ When I have finished reading it the second time, I will give you two minutes to finish your sketch.
- ▶ It doesn’t have to be a saleable work of art, it is just a sketch that will remind you of the story so you can retell it when asked.
- ▶ He pātai? Any questions?
- ▶ Let’s start now.

READ AND SKETCH

- ▶ Read each beat through slowly and clearly, two times. Then leave two minutes for ākonga to finish up their sketches, before moving onto the next beat.

RETELL

- ▶ Moving around the room ask students to retell one fact from Beat 1, to the best of their recollection, using their sketch to help. Ask a second student to add to what has been told. When all details have been recalled, proceed to the following beats 2, 3 and 4.

DISPLAY

- ▶ Display the beats on the floor
- ▶ Give everyone an opportunity to view each other’s work.
- ▶ Let students decide which one (or more) from each beat to display on the walls

Te rautaki pakirehua pāpori - *Social Inquiry strategy*

Zero in on one aspect of interest about your topic and following this social inquiry model:

- ▶ **Plan** – identify your focus area, and your methods of research. Plan methods of presenting the information
- ▶ **Explore** – ask further questions and conduct your research. Read from a variety of sources, ensuring validity and authenticity in the information.
- ▶ **Use and choose** – organize the information and evaluate your discoveries, with justifications.
- ▶ **Create** a presentation for your material – make sure it is clear and you can use a range of formats; practice your presentation so you can confidently
- ▶ **Share** your mahi to a wider audience, and finally
- ▶ **Review** – assess the process and skills you used. What action/s can you take?
 - ▶ What would improve an inquiry like this in the future?
 - ▶ What did you do really well?

Some tips for analysing texts

- ▶ **Māori history** is the foundational and continuous history of Aotearoa New Zealand. To not investigate that cultural history, means the learning is incomplete. In Ngāi Tahu takiwā, that means Ngāi Tahu sources (as opposed to a Māori voice from another iwi) is crucial.
- ▶ The “Te Ara a Kiwa” context is Ngāi Tahu driven, re-tells a Ngāi Tahu legend, is told by Ngāi Tahu writers who work for their iwi, and can therefore be considered authentic and reliable. Note that this is not always the case.
- ▶ When analysing texts from other sources, keep in mind:
 - ▶ Who is the source? Who is telling this story? What is their authority to give that information?
 - ▶ Are dates and sources shown in the information source (i.e. can you tell when that information was recorded?)
 - ▶ Who's perspective is given? Who's is missing?
 - ▶ Are the sources reliable?
 - ▶ Is the information unbiased and does it portray a balanced view?

How do we say those place names?

Why do we need to say those words correctly?

"If you pronounce Māori words correctly, **it implies you have respect for the language**. If you have respect for the language that would imply you have respect for the culture. "If you have respect for the culture, you most probably have respect for the people."

Try to get several sources from different times and people, as each account differs at times.

Add current photos or any historical images of those places too.

Please note that Wikipedia is **not** a reliable source, so avoid relying on that source.

Also, **never** use Google Translate for te reo Māori!

More learning ideas ...

Most suited to Years 4-10

Character creation:

Create a character using Scratch (or other technology) to journey with Kewa, and visit the underwater caves, rimurapa, shellfish, and other sea creatures that you encounter. As you stop at each new point, you could include information and images to help us understand your journey.

Literacy:

Be a junior AQUAMAN on this exploration journey. You can breathe underwater and can accompany Kewa. Write about what you reasonably assume or believe you would have seen, heard, done or said, and encountered along the way. Be prepared to create this story for a younger class to have in their Big Book corner to learn about the journey. You may want to illustrate it yourself, or work with an artistic buddy to produce your pakiwaitara – a made up story. Give it an interesting title, that makes us want to read it.

“Mahinga kai” is the 9th tall tree

Most suited to Years 4-10

Create a food map:

Traditional food gathering methods and sites is considered the “**9th tall tree of Ngāi Tahu**” – check out the link in the image for an explanation. Mahinga kai places also includes sea locations, and many are now protected “mātaimai reserves”.

Māori always settled near to fresh and abundant food sources, and their pā were often coastal settlements, allowing easy access to sea, rivers and forests for food gathering.

Create a map of the food species that you would find in Te Ara a Kiwa and in the Awarua region. Knowing that the local whānau, hapū and iwi would have gathered kai from here, do you consider their diet varied and interesting? Why do you say that? If you were gathering one of those food species now, how would you prepare it to eat? How would you gather it? Compare and contrast traditional methods with modern methods using a Venn diagram.

What other food sources would they have accessed for a balanced and varied diet?

“SILNA” (South Island Landless Natives Act, 1906)

Most suited to Years 9-13

AN INQUIRY IDEA:

RELATIONSHIP: This law was passed to alleviate poverty when natives became “landless” by deception. Were the aims of the law achieved? What does that Act of Parliament teach about the relationships (connections) between people and land?

POWER: who has power (past and present) over the lands?

PARTICIPATION: who has worked to preserve, protect or change the outcome? Were the allocated lands suitable to make a living on (agriculture, food gathering, residential)?

PERSPECTIVES: which groups have different (competing) perspectives on the issue?

COLONISATION: How do colonial practices and attitudes shape the events that occurred since mid to late 1800s?

MĀORI HISTORY: what does SILNA tell us about Māori history and contexts?

This topic calls for research into further accounts about actions that occurred, particularly post Te Tiriti o Waitangi, and it should lead to some transformation of perspectives. A great outcome would be to gain an understanding that Māori history is foundational and continuous, and that colonization is central to NZ history. There may have been some laws passed that showed some prejudice towards settlers or against tangata whenua, so its good to check out local parliament and Government records, Acts, by-laws or petitions of claim relevant to the region. Using cultural contexts: some tips

The Aotearoa NZ Histories curriculum encourages schools to develop a relationship with mana whenua. Don't make your first engagement a request for information or assistance. Without an existing relationship, your starting point should be to contact the curriculum lead in your local MoE. Their mandate is to connect schools with mana whenua.

Each school may have different starting points. An early task may be to understand who mana whenua is. The marae, pepehā, and any further information you can ascertain and learn is a great start. It may be that the papatipu rūnanga has an approach of progress they would like you to take. It would be great to understand what stories mana whenua are willing to share widely. Be prepared to use those stories, often starting with migration or creation narratives, explore the relationships and connections from that point. Acknowledge that the idea of historical thinking for iwi Māori starts at a different point than a western view.

Understand also that oral histories are valid and reliable – just because it wasn't "written" doesn't invalidate the history. Oral histories are embedded in tribal pepehā, waiata such as mōteatea and haka, as well as karakia and well known whaikōrero. They are also embedded through tukutuku panels, and whakairo (traditional Māori carving) featured in Māori traditional houses.

Ensure Ngāi Tahu sources are used and uplifted as the primary information source. Acknowledge all sources and be prepared to question the perspective that source represents. Explore your own ideas of what mātauranga is/what history is in Aotearoa NZ. Interrogate your biases.

Critical skills development

1. Learn the information to embed the knowledge - mōhiotanga. Research widely
2. Use your content knowledge and your social sciences curriculum knowledge to design explicit teaching points for your ākonga
3. When using an iwi cultural narrative, consult with and engage with mana whenua at the outset, and ensure you stay true to the story without making assumptions about the facts.
4. Have a variety of reliable sources of information at the ready for your students to explore
5. Start with a rich question
6. Plan for progression within progressions – take the learning to where the students' interest directs, delving deeply with critical questioning skills
7. Revisit the same big ideas and practices in different contexts
8. Encourage ākonga to look at everything with a critical eye
